

Creative people solutions.  
Measurable business results.

## Training and Competency System

White Cube Consulting have developed an online Training and Competency Management System which offers:

- Complete overview of skills, competencies, qualifications and certifications in one place
- Technical and behavioural competency tracking
- Managements of internal and external training; from seminars and offshore training, to online courses or distance learning.
- Progress tracking throughout the training process
- Efficient reporting to demonstrate the competency of your staff
- Forecasts of upcoming training and re-certification needs
- Effective reporting on training & development KPIs
- Management of your workforce to the best advantage
- Reducing last-minute training course drop outs
- Ability to contact and manage delegates directly from within the system
- Automatic generation of delegate badges, sign in sheets and completion certificates
- Full customisation for your specific requirements.

## Solutions

Comprehensive support for managing and administering organisational training and competency requirements

Highly cost-effective, out of the box solution that can be customized to meet your specific needs

Option to deploy internally or as cloud based solution

## Results

Effective competency management

Reduced training costs

More productive employees / managers / leaders

Increased profitability

**"An organisation's ability to learn  
and translate that learning into action  
is ultimate **competitive advantage**"**

**Jack Welch**
