

Creative people solutions
Measurable business results

Your challenge?

Ensuring competence of your workforce
Assessing, managing and tracking competency levels

Solutions

HR consultancy - Development of competence frameworks, processes and systems to accurately assess individual, team and organisational competence.

Competency assessment - comprehensive technical skills and behavioural assessments in line with competence frameworks.

Online training and competency system – efficient, cost effective management and administration of training and competency.

Development – delivery of skills-based training to ensure competence.

Workshops – effective roll-out of competency management systems and processes.

"The greater danger for most of us lies not in setting our aim too high and falling short; but in setting our aim too low, and **achieving our mark"**
Michelangelo
